THE
LIFE IS
EXHAUSTING
ENOUGH.

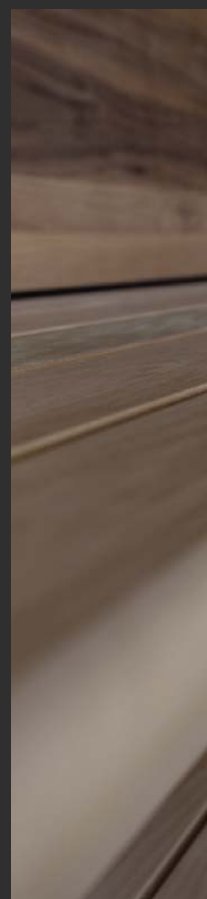

WHAT WE DO AND WHY

RORO has been a household name on the market for saunas and infrared cabins for decades. With the original RORO premium sauna segment, we appeal to people who want to combine the pleasures of the Finnish sauna with their personal lifestyle and can afford it.

Whether it is a retrofit installation or a design as part of a house construction project, we are happy to work with you to develop the design, material mix and technical realisation of a spectacular individual system. In most cases, this will go far beyond simply supplying and installing a prefabricated sauna module. If you let us, our part will begin after your briefing with the submission of various suitable creative proposals for the system design and, if necessary, integration into the overall construction project. We are happy to incorporate your own ideas and visions here and throughout the course of the project.

Our central task is, of course, the technical configuration as well as the production and delivery of customised components and modules. You can rely on RORO to have the necessary expertise and extensive experience for demanding projects of this quality.

SAUNA

Let's forget everything we previously associated with saunas and take a completely new approach to the subject. The architecture: completely new. The design: completely new. The materials: completely new. The atmosphere: completely new. The variation possibilities: completely crazy. Let us simply think ahead of trends and realise them at the highest level of craftsmanship!

ME.
WHAT REALLY
MATTERS

ORIGINAL RORO- SAUNA

Always just me, me, me! Well, what else?

The RORO premium sauna segment is pure individuality. There is nothing off-the-peg here; every element, every material combination, every colour is exclusively tailor-made for your home - developed together with you.

And for no one else.

Do you really have to have such an exclusive premium sauna? No, you don't have to. But you can. Because you want to treat yourself to something special. Because you can afford it. Because you've earned it. Because of the neighbours. Just because. There's always a reason. Luxury: not necessary, but wonderful!

MY KINGDOM.

INDULGENCE
IS A QUESTION
OF ATTITUDE.

The image shows a sophisticated indoor pool environment. A rustic stone wall serves as the backdrop, with a recessed ceiling light strip above it. In the foreground, a swimming pool with blue mosaic tiles is visible. Along the pool's edge, there are two sleek lounge chairs and a small glass table holding a bottle and two glasses. The overall atmosphere is one of luxury and relaxation.

AND WE
BUILD A COSY
PALACE.

WHAT YOU CAN EXPECT FROM US

It all starts with dialogue, in person or digitally. We get a precise picture of your ideas and the planned project. On this basis, our product designers can work with you to develop proposals that you will recognise. You can expect an accurate analysis and fresh, unusual creations in the form of vivid 3D simulations.

Our designers are always on the lookout for fresh inspiration, keep an eye on current trends and set new ones. We think as "out of the box" as possible and are influenced not only by relevant trade fairs, but also by urban, industrial or natural impressions. Accordingly, we play with all conceivable styles and materials such as glass, metal, stone, plastic or unusual woods in countless variations.

In many cases, our sauna concepts are an integral part of the architecture and therefore a fixed construction phase. This is not possible without a smooth co-operation with the architect and is only a matter for RORO. During this planning phase, we solve any tricky thermal and static challenges due to demanding material combinations, define seals and connections and much more in accordance with the recognised rules of technology. We take the same care with subsequent installation.

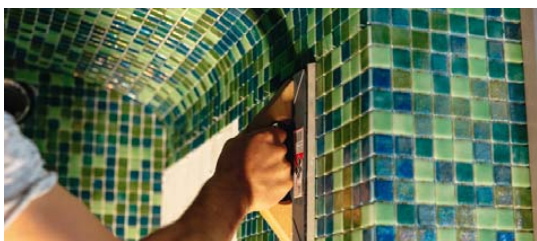

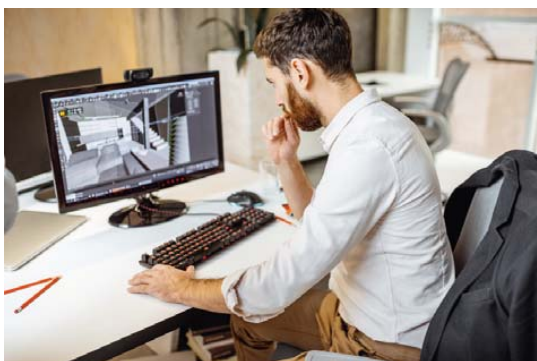

Our well-rehearsed logistics ensure undamaged delivery, no matter where. We are more than happy to take care of the professional installation - which, depending on the complexity of the system, can often mean the complete interior fit-out - including all tradesmen's services through our professional network. We coordinate drywall construction, joinery work, laying of tiles, natural stone and/or paneling, inlays, glazing, electrical and lighting technology etc. right through to turnkey handover.

PREMIUM.
ALWAYS.
ON PRINCIPLE.

A little less premium is out of the question - we put all our knowledge, expertise and passion into each of our premium saunas. Even if you want us to take a back seat when it comes to design.

AND IF ESCALATING IS NOT YOUR THING?

You may not have unlimited space for larger conversions around a completely customised creative sauna that is integrated into the room architecture. Or it may simply be too much for you. Nevertheless, you don't have to do without the luxury of a RORO premium sauna.

We have already thought ahead and prepared for such cases. The result is a really chic range of standardised premium saunas with a clear, minimalist design language and an elegant mix of wood and glass materials. Sophisticated lighting sets interesting accents and emphasises the warm, harmonious overall impression.

These flawless premium saunas are classically mobile and can therefore be positioned anywhere without the need to convert existing rooms. Wherever you can find a spot, and as we all know, that's in the smallest hut.

The following pages will give you an idea of what this might look like in your case.

PLEASURABLE FLOATING ON A GENTLE WAVE OF WARMTH

RORO premium infrared cabins seamlessly join the premium sauna family for all fans of pleasant infrared heat who place increased value on particularly elegant design and high-quality workmanship. Here too, the premium segment impresses with a balanced combination of material elements, attractive surfaces and a generous design that blends harmoniously into any upmarket ambience. Here you can enjoy the relaxing deep effect of the warming infrared rays, which are modelled on the natural energy emitted by all warm bodies, in complete comfort. Of course, the cabins can also be ideally combined with a sauna.

INFRARED CABINS AT PREMIUM LEVEL.

Same claim, different furniture: our premium infrared cabins are designed and manufactured just as beautifully and with the same dedication as our premium saunas. And therefore also fit together in one room.

Infrared cabins achieve a similar health effect to the Finnish sauna, although the temperatures here are comparatively low at 55 to 65°C. This makes them a gentle alternative, especially for older people. This makes them a gentle alternative, especially for older people.
